Honeywell

WHY CHOOSE HONEYWELL INTELLIGRATED'S ICAMPUS?

FEATURES

- An interactive learning environment utilizing video, animations, charts, and dynamic text.
- Learning assessments built into each module.
- Note taking to prioritize what is important to each learner.
- 100+ reports to track progress.
- An average OEM course length of 22 minutes to maximize time off the floor.

Already have your own Learning Management System?
Utilizing iCampus' built in AICC dispatch feature we can link our content directly into your platform. This will assist in:

- Minimizing training locations
- Centralizing reporting
- Managing the administration

BENEFITS

Boost Operational Efficiency

Training equips employees with skills to resolve maintenance issues promptly, improving productivity.

Reduce Downtime

Well trained employees have the potential to perform preventive maintenance, reducing the need for repairs and equipment replacements.

Enhance Workplace Safety

Proper training provides employees with the knowledge to hangle machinery and equipment safely, reducing the risk of accidents and injuries.

Improve Equipment Lifespan

The implementation of effective maintenance strategies result in extended equipment life, reduced downtime, and improved return on investment.

Increase Employee Satisfaction & Retention

Offering industrial maintenance training demonstrates a commitment to employee development and career growth, which ehances employee satisfaction and may lead to higher retention rates.

COURSES OFFERED

Safety and Health (300+)
