Honeywell Intelligrated®

# Get Superior Facility Management With Momentum™ Machine Control

## A Next-Generation Machine Control Platform

Choose from five modular systems that enable you to use only what you need:

### General Conveyor Control

**Increases accuracy,** provides **reliable accumulation control,** and **increases productivity** by **reducing damaged packages** and **eliminating side-by-sides.**

### Gap Optimizer

**Minimize downtime** and **maximize throughput** with high-speed merges **up to 400 cases per minute** and **gaps as small as 1 inch.**

### Diagnostic and Calibration Tools

Keep sorters and merges **operating at peak capacity** with **precise calibration,** while ensuring uptime with **proactive performance** and **equipment health checks.**

### Sortation

Enable your sorters to **run at a much higher rate** and **decrease product damage.** You'll also know the exact location of every carton with **store-to-door tracking.**

### Merges

Hybrid merge logic **optimizes throughput,** combining lanes to **fully utilize merges** and deliver **higher efficiency during non-peak operation.**

## Additional Benefits

### Use Only What You Need

**Modular design** gives you **cost-effective flexibility.**

### Easy Access

**Web-based interface** enables you to **log in from any computer** with internet access.

### 3D Visualization

Optional ViewCenter integration provides **powerful troubleshooting tools** with an intuitive **3D overview of your entire operation.**

### Faster Implementation

Emulation/ simulation **reduces commissioning time.**

### Easier System Management

**Superior visibility** of system resources and operations **gives you more control.**

### Detect Problems Fast

Alarms and events **monitor issues throughout the warehouse.**

### Proactive Alerts

OPC/UA capability **warns you before assets fail.**

### Cost-Saving Energy Management

Balance **day-to-day efficiency** with **maximum peak throughput.**

### Easy Upgrades/ Expansions

**Seamlessly integrate** with other functions and services.
