Honeywell Intelligrated

ZONEFLEX® ADVANCED

accumulation conveyor technology

TRAFFIC JAMS DIRECTLY IMPACT YOUR BOTTOM LINE

REDUCE PRODUCTIVITY BOTTLENECKS

- *product damage*
- *conveyor contamination*
- *costly customer service errors*
- *loss of production for cleanup processes*

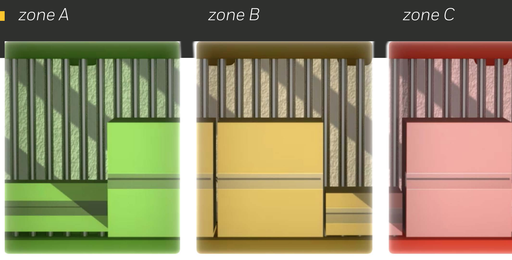

PREVENT SIDE-BY-SIDES

with proprietary technology neighborhood mode

ENABLE SPEED CONTROL AND PRODUCT VISIBILITY WITHIN INDIVIDUAL ZONES

available as an upgrade or a replacement

MINIMIZE CARTON CONGESTION IN THE RECIRCULATION LOOP

prevent costly shipping and inventory errors by eliminating the need to clear jams and overflows

45% INCREASE IN THROUGHPUT

industry-leading speed capability enables future production increases without adding to your overall conveyor footprint

UPGRADE TO ZONEFLEX ADVANCED

for increased throughput, less downtime and reduced labor requirements
